

2022 - 23 Most Endangered Places Nomination Form

Historic Kansas City's Most Endangered Places

Historic Kansas City publishes the Most Endangered Places List to raise awareness and advocate for our city's historic buildings and resources. HKC's Most Endangered Places list is a non-exhaustive roster of notable places threatened with demolition or extreme alteration. The list is a call for action from all stakeholders and is not a compendium of endangered historic places in our region or even all significant historic places threatened.

Inclusion on the Most Endangered Places list has proven beneficial for Kansas City's historic places. For some properties, nomination to the list is a last chance for survival.

What is an endangered property?

- A threatened historic place important to the community
- An irreplaceable local landmark fallen into disrepair
- An architecturally significant building or structure that's been abandoned
- A historic district or building type threatened by poor planning or public policy

Historic Kansas City has used its list of Most Endangered Places to spotlight important examples of architectural and cultural heritage that were at risk of destruction or irreparable damage.

Do you know of a threatened historic place? If so, nominate it for the Most Endangered Places List. Nominations will be accepted until **Wednesday, September 14, 2022 at 5 pm.**

Nomination Eligibility Criteria:

- There must be a degree of endangerment by owner neglect, proposed demolition, rezoning, or redevelopment and/or other factors.
- There must be evidence of local support, or clear potential for building local support, for preservation of the property.
- The property must be listed on or eligible for listing on the Kansas City Register of Historic Places or the National Register of Historic Places.

Selection will be made based on the properties' significance as determined by Historic Kansas City and not solely on the degree of endangerment.
